

## ISG shows BIG skills in M-Elrob 2008

*The glorious robot Mörrri at the scene*

Yep, We did it! Hurray!

The Robotics Group team of University of Oulu celebrates the glorious victory in **Military-European LandRobot Trial 2008** held in Lager Hammelburg, Germany. The team managed to beat all the other eight teams participated in the camp security scenario.

The M-Elrob 2008 was held in June-July 2008 in Germany, Lager Hammelburgs military base. Eight members of the team of Oulu spent two long weeks eating military food and sleeping in mediocre conditions of German

During the camp security scenario of M-Elrob 2008, the team of Oulu managed to find 4 / 6 intruders during the 40 min trial. The technical leader of the team, A. Tikanmäki says: "No problem!"

The team of University of Oulu managed also to beat up the German pride BASE 10 second year in a row! The 4 million euros robot didn't have a single chance to beat the 60 kg Mörrri, when the robots met in the Mule-Scenario.

With these glorious news, the team is ready to participate the next challenge: European Space Agency's Lunar Robotic Challenge. The challenge is held on October 2008. More information can be found from the youtube channel: [www.youtube.com/nooa81](http://www.youtube.com/nooa81)

*BASE10 is defeated, second year in a row*

Camp-security scenario		Score for autonomie x 4	Score for caught intruders x 3,5	Score for "detection time" x 2,5	Total
AirRobot, GE	AR 100-B	2,00	0,00	0,00	2,00
Diehl, GE	CANGURU	2,00	1,75	0,31	4,06
